

Name: _____

Science Grade 4 - Page - 290-295

Saltwater Ecosystems

- ocean basin - the surface of the earth covered by an ocean
- continental shelf - the underwater land along the coast of a continent
- trenches - the deepest places of the ocean floor
- abyssal plain - the valley-like floor of the ocean between continents
- sunlight zone - the ocean depth with the most light - has the most ocean life because of photosynthesis
- twilight zone - the ocean depth with only blue light, does not allow photosynthesis
- midnight zone - the dark depth of the ocean after the twilight zone
- abyss - the deepest, darkest zone of the ocean

Fill in the Blanks

- ocean basin - the _____ of the earth covered by an ocean
- continental shelf - the underwater _____ along the _____ of a continent
- trenches - the _____ places of the ocean floor
- abyssal plain - the _____-like floor of the ocean between continents
- sunlight zone - the ocean _____ with the most _____ - has the most ocean life because of _____
- twilight zone - the ocean depth with only _____ light, does _____ allow photosynthesis
- midnight zone - the _____ depth of the ocean after the _____ zone
- abyss - the _____, _____ zone of the ocean

If He withholds the waters, they dry up;
If He sends them out, they overwhelm the earth.
