

Name: \_\_\_\_\_

Long Division involves multiplication and subtraction

$$\begin{array}{r} 1 \\ 5 \overline{) 675} \\ \underline{- 5} \phantom{0} \\ 1 \phantom{0} \end{array}$$

think: how many times can 5 fit inside the number 6

answer: 1

so 5 times 1 is 5

then subtract 6-5 which equals 1

5

pretend you have 5 apples and a basket that only holds 6 apples - how many loads of 5 apples will fit inside the basket that only holds 6 - answer 1 load.

$$\begin{array}{r} 1 \\ 5 \overline{) 675} \\ \underline{- 5} \phantom{0} \\ 17 \phantom{0} \end{array}$$

think:

how many times can 5 fit inside 1

answer: 0

so 5 is being a bully!

1 needs help from his friend in the house, number

7

I'll help!

$$\begin{array}{r} 13 \\ 5 \overline{) 675} \\ \underline{- 5} \phantom{0} \\ 17 \phantom{0} \\ \underline{- 15} \phantom{0} \\ 2 \phantom{0} \end{array}$$

think:

how many times can 5 fit inside 17

answer: 3

so 5 times 3 is 15, write that under the 17

and subtract 17-15,

write 2 as your answer as your answer

$$\begin{array}{r} 13 \\ 5 \overline{) 675} \\ \underline{- 5} \phantom{0} \\ 17 \phantom{0} \\ \underline{- 15} \phantom{0} \\ 25 \phantom{0} \end{array}$$

think:

how many times can 5 fit inside 2

answer: 0

so 5 is being a bully again, who can help?!

1 needs help from his friend in the house, number

5

I'll help!

$$\begin{array}{r} 135 \\ 5 \overline{) 675} \\ \underline{- 5} \phantom{0} \\ 17 \phantom{0} \\ \underline{- 15} \phantom{0} \\ 25 \phantom{0} \\ \underline{- 25} \phantom{0} \\ 0 \end{array}$$

think:

how many times can 5 fit inside 25

answer: 5

so 5 times 5 is 25, write that under the 25

and subtract 25-25,

write 0 as your answer as your answer

your final answer of 675 divided by 5 is 135
