

Name: _____

7.9 Science Grade 4 - Pages - 362-364 Dinosaurs and the Bible

- **Fossils** - Help us study animals that were alive in Noah's time but are now extinct
- **Climate Change** - happened after the great flood of Noah
- **Dinosaurs** - animals that are now considered extinct
- **Sauropod** - largest land animal that ever lived, as tall as a 50 story building (50 feet) with strong neck, tail and legs like columns

Fill in the Blanks

- **Fossils** - Help us study animals that were alive in Noah's time but are now _____
- **Climate Change** - happened after the great _____ of Noah
- **Dinosaurs** - animals that are now considered _____
- **Sauropod** - _____ land animal that ever lived, as tall as a 50 story building (50 feet) with strong neck, tail and legs like columns

- 15 "Look at Behemoth,
which I made along with you
and which feeds on grass like an ox.
- 16 What strength it has in its loins,
what power in the muscles of its belly!
- 17 Its tail sways like a cedar;
the sinews of its thighs are close-knit.
- 18 Its bones are tubes of bronze,
its limbs like rods of iron.
- 19 It ranks first among the works of God,
yet its Maker can approach it with his sword.
- 20 The hills bring it their produce,
and all the wild animals play nearby.
- 21 Under the lotus plants it lies,
hidden among the reeds in the marsh.
- 22 The lotuses conceal it in their shadow;
the poplars by the stream surround it.
- 23 A raging river does not alarm it;
it is secure, though the Jordan should surge
against its mouth.
- 24 Can anyone capture it by the eyes,
or trap it and pierce its nose?

The Water Cycle

- the water cycle - the movement of water from the earth to the air and back again
- evaporation - the process by which liquid becomes water vapor
- condensation - the process by which water vapor changes back into very tiny droplets of liquid water
- precipitation - any form of water which falls from the sky to the earth
- water runoff - precipitation that eventually trickles into streams

- the water cycle - the movement of water from the _____ to the _____ and back again
- evaporation - the process by which _____ becomes water _____
- condensation - the process by which water _____ changes back into very _____ droplets of _____ water
- precipitation - any form of _____ which _____ from the sky to the earth
- water runoff - precipitation that eventually _____ into _____

Psalm 65:9

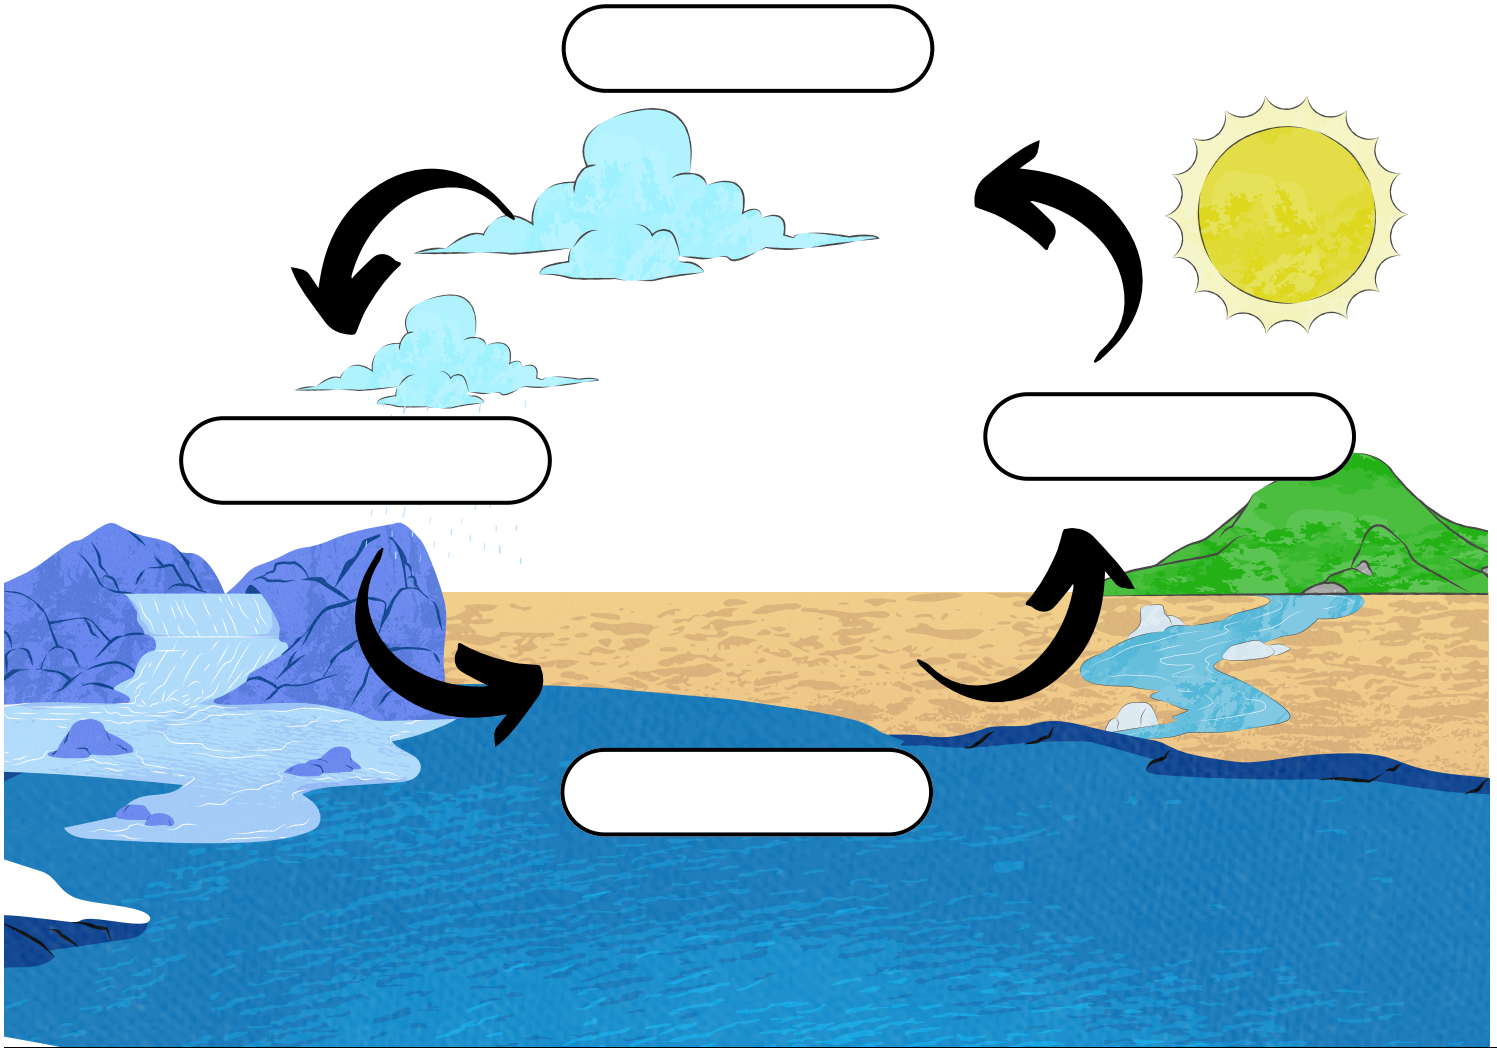

You care for the land and water it; you enrich it abundantly.
The streams of God are filled with water to provide the people with grain,
for so you have ordained it.

Name: _____

8.5 Science Grade 4 - Pages - 405-411 The Water Cycle

Directions: Look at page 405 in your Textbook and fill in each blank with the correct step in the water cycle. Then explain what each step's role is in the cycle.

CONDENSATION-

PRECIPITATION-

WATER RUNOFF-

EVAPORATION-
