I won 10 rounds of gaga ball, I prayed to win.

God is all-powerful, or Omnipotent, because He created everything we see, like the sun, moon, stars, animals, and the entire world, by simply speaking. His power is shown in how He sustains His creation and can perform amazing things no one else can do, such as splitting the sea or lifting mountains.

Even when we feel scared or helpless, God is always there and ready to help us because nothing is too difficult for Him.
